

EXISTING

NEED

General Notes:

- 1) This timeline represents a summary of all 194 SDPBC Facilities with anticipated and recommended future facility needs.
- 2) A Facility may have several buildings of different ages, thus for summary purposes, an "Average Age" has been determined. Actual facility or building acquired or built date(s) may be earlier than the "*Average Age Built" date indicated on the timeline. All actual date details are being evaluated for each facility to determine future facility need projects.
- 3) See Lists "A" through "F" on page 2 of 2

List "A"
